Committee on Appropriations
Project Request Summary**

Subcommittee, Agency and Account Information

Subcommittee

Defense

Agency

Research, Development, Test And Evaluation, Defense-Wide (RDTE,DW)

Account

170 (0305103E) Cyber Security Initiative

Project Information

Project Name:

Cyber Defense Initiative

Amount Requested:

\$2,500,000

Project Description:

The Cyber Defense Initiative involves the development of an integrated system to detect, respond and recover from security compromises at all layers and points in a distributed computer system. The initiative includes the development of software capabilities to mask fault tolerance components of distributed computer systems from detection by cyber attack and to model a zoned system of coordinated defense of distributed networks

Intended Recipient of Funds

Illinois Institute of Technology

10 West 35th St.

Chicago, IL 60616

Explanation of the request:

This work will be conducted at the Illinois Institute of Technology main campus in the 1st District and will employ numerous individuals
